

Product description:

- Cleaning- and care agent for naturally treated furniture surfaces and floors on the base of biodegradable tensides (according to the law of washing- and cleaning agents) and natural waxes.

Features:

- On a base of biodegradable tensides that have a neutral pH value
- Contains the wax of the carnauba palm natural care and maintenance.
- Also suitable for laminate flooring, tiles and plastic surfaces
- Not suitable for mirrors, marble or non-slip surfaces
- Both cleans and maintains in one process

Directions for use:

Regular Cleaning and Maintenance:

- For normal soiling dilute 25-50 ml of **Treatex® Floor Care** in 5 litres of water. Mop the surface with this solution ensuring that the mop is only damp and never wet. This process both cleans and maintains the floor at the same time.

Intensive Cleaning:

- For heavier soiling or more intensive maintenance, increase the strength of the solution to a maximum ratio of 1:10 (i.e. 100 ml of **Treatex® Floor Care** per 1 litre of water).

Tips:

- To avoid swelling, never allow wood to remain damp or wet for any length of time. Wood absorbs water and this may change the shape of the wood. For this reason, wooden surfaces should only be mopped or wiped with damp (i.e. well wrung out) cloths and wet patches should be avoided.
- Explanation of contents (in accordance with EU recommendations)
- Contains no solvents, thickeners or dyes. Less than 5% non-ionic tensides. Contains preservatives and carnauba wax.
- Keep out of reach of children. Polyethylene packaging. Protect from frost. Please only dispose of containers that have been completely emptied.

Product Information

Treatex® Floor Care

1160

Technical data:

Condition:	liquid
Colour tone:	whitish
Delivery viscosity:	11 s/DIN 4 mm/20°C
Non-volatile component:	3,5 %
Density:	0,999 g/ml
Flashpoint:	> 100 °C
Packaging sizes:	1ltr and 5 ltrs
Degree of gloss:	-
Storage life:	12 months in closed original cans to be stirred before use
Storage temperature:	10-30 °C

Information to safety: Please see actual safety data sheet!
