

Safety data sheet in accordance with 91/155/EEC

Trade name : **Treatex® Floor Care**
Product no.: 1160
Revised: 10.08.2001
Page: 1 / 4

1. Identification of the substance/preparation and company

Product details

Treatex Floor Care

Recommended use

Surface treatment of wood and other materials

Supplier details :

Treatex Ltd

54, Sandford Lane Industrial Estate

Kennington

Oxford

OX1 5PR

Telephone no. : 01865 735353 Telefax : 01865 736673

Emergency telephone number : 0049 30 / 192 40

2. Composition/information on ingredients

Hazardous ingredients

None according to the EC directive on preparations

3. Hazards identification

Hazard indication

not applicable

Special hints about risks for man and environment

No special hazards have to be mentioned.

4. First aid measures

General information

Change soaked clothing

after inhalation

Ensure supply of fresh air.

after contact with skin

In case of contact with skin wash off with warm water

after contact with eyes

In case of contact with eyes rinse thoroughly with warm water

after ingestion

When swallowed accidentally, drink sufficient amounts of water and seek medical aid.

5. Fire-fighting measures

Suitable extinguishing media

Alcohol-resistant foam

Carbon dioxide

Dry powder

Water spray (partly applicable)

Special hazards from the material itself or its combustion products

The product is not combustible!

6. Accidental release measures

Personal precautions

Provide adequate ventilation.

Environmental precautions

Do not allow to enter drains.

In case of penetration into waters, earth or sewers inform the appropriate authorities.

Under normal conditions and well ventilation
no special measures are required

Hand protection For prolonged or repeated contact, use
impervious gloves

Eye protection For protection against splashes wear goggles
with lateral protection (EN 166).

9. Physical and chemical properties

Appearance

Form liquid

Colour colourless

Odour mild

Flash point

> 100 °C

Density

0.999 kg/l

at 20 °C

pH value

7.1 until 7.5

Viscosity DIN 4 mm

10 until 12 sec

at 20 °C

VOC-content

0 %

10. Stability and reactivity

hazardous decomposition products

When exposed to high temperatures hazardous decomposition products may

be formed such as carbon monoxide and dioxide, nitrogen oxides, smoke.

11. Toxicological information

Remarks

The preparation is classified according to the calculation method of the directive 1999/45/EC.

Toxicological data are not available
further toxicological comments

According to our knowledge and information on hand the product does not cause any health hazard, if handled properly and used as intended.

12. Ecological information

Remarks

There are no data available on the preparation itself.
Do not empty into drains.

13. Advice on disposal

Product

Do not dispose together with household waste.

Codes of waste according to the European Waste Catalogue (EWC):

08 01 12 waste paint and varnish other than those mentioned in
08 01 11

Uncleaned packaging

Containers must be completely emptied (spatula clean) before they can be reused. Disposal according to regulations!

14. Transport information

According to the transport regulations the material is not classified as harmful

15. Regulatory information

Labelling in accordance with GefStoffV/EC-directives

The product does not require a hazard warning label in accordance with EC directives on dangerous substances.

National regulations (Germany):

Technical instructions on air quality control:

TA Luft	Class I:	0	%
	Class II:	0	%

Klassifizierung nach Betriebssicherheitsverordnung (BetrSichV)
not applicable

Water endangerment class (classification acc. VwVwS):

WGK 1: slightly water-endangering
